

ONLINE - using a free QR Code generator website

(we're using QRCode Monkey as an example)

1. Head to www.qrcode-monkey.com
2. Click on the + symbol next to 'Enter Content'
3. Write or copy/paste website URL into the 'Your URL' box
4. If you like you can customize your design by changing the colours, adding a logo image, adjusting the size/quality and more!
5. Click on the 'Create QR Code' button and then the 'Download PNG' button

ADOBE INDESIGN

1. Create a new square document (e.g. 800px x 800px)
2. Using the rectangle or frame tool, make a square
3. Click 'Object' in the top menu then 'Generate QR Code'
 OR right click on the rectangle and select 'Generate QR Code'
4. Under the 'Content' tab, change the type to 'Web Hyperlink'
5. Write or copy/paste website URL into the 'URL' box
6. If you like you can change the colour in the 'Colour' tab
7. Export the QR code as a PNG

** To add a QR code to an existing document (e.g. a poster) just follow steps 2 – 6 then export your document as normal.
