

Neighbourhood Emergency Resilience Plan

Neighbours who know each other and have a plan in place are far more likely to be able to quickly, safely and effectively navigate an incident or disaster than those who do not. Use this template to put together a plan with the people who live around you or nearby.

Group Contact Details:

Consider how your group is going to remain in contact: (Please circle or tick)

Phone Email WhatsApp Group Social Media Chat/Group Regular Get-Togethers

Other: _____

What incidents do we need to plan for? (Please circle or tick)

Fire Earthquake Tsunami Flood Storms Police/Crime Landslides Volcanic Activity

Health Outbreak Other: _____

Action List

What do we need to work on to prevent or prepare for these incidents?

(eg. remove fire hazards, install burglar/fire alarms, clear drains, clear access ways for emergency services, schedule regular check-ins, buy a generator)

Who might need assistance now or during an incident?

(eg. due to age, health condition, or mobility)

Your Neighbourhood Support Contact

List of Emergency Resources In Our Street / Group

Resilient communities stay well-connected, look after each other, share skills, equipment and resources and therefore recover from incidents and disasters quicker. If an incident were to occur, what resources and skills do you have available amongst your group that will allow your community to respond quicker and more safely?

Fill out the following resources checklist for your street / group.
