

Neighbourhood Preparedness Plan

Neighbours who know each other and have a plan in place are far more likely to be able to quickly, safely and effectively navigate an incident or disaster than those who do not. Use this template to put together a plan with the people who live around you or nearby.

List of Emergency Resources In Our Street / Group

Resilient communities stay well-connected, look after each other, share skills, equipment and resources and therefore recover from incidents and disasters quicker. If an incident were to occur, what resources and skills do you have available amongst your group that will allow your community to respond quicker and more safely? Fill out the following resources checklist for your street / group.
