

Creating Inclusive Spaces

Keeping our disability community in mind

Find creative ways to communicate

If someone relies on lip reading they may struggle to understand you if you're wearing a mask. Try another way to chat.

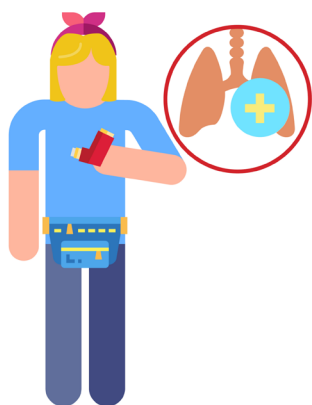

Keep QR codes and sanitisers accessible

If placed out of reach or behind large objects / barriers, some visitors may struggle to access them safely or at all.

Don't assume everyone can wear a mask

For some people with disabilities or health conditions, wearing a mask may not be possible. Thanks for being considerate!

Be considerate of those with low vision

This might make it challenging to distance from others or easily find / scan QR codes. Consider supplying info in audio or braille.

Neighbourhood Support New Zealand
